**Needs and Uses:** Section 276 of the Communications Act, as amended (the Act), requires that the Federal Communications Commission (Commission or FCC) establish rules ensuring that payphone service providers or PSPs are “fairly compensated” for each and every completed payphone-originated call. The Commission’s Payphone Compensation Rules satisfy section 276 by identifying the party liable for compensation and establishing a mechanism for PSPs to be paid. A 2003 Report and Order (FCC 03-235) established detailed rules (Payphone Compensation Rules) ensuring that payphone service providers or PSPs are “fairly compensated” for each and every completed payphone-originated call pursuant to section 276 of the Communications Act, as amended (the Act), which the Commission revised in a 2018 Report and Order (FCC 18-21). The Payphone Compensation Rules satisfy section 276 by identifying the party liable for compensation and establishing a mechanism for PSPs to be paid. The Payphone Compensation Rules: (1) place liability to compensate PSPs for payphone-originated calls on the facilities-based long distance carriers or switch-based resellers (SBRs) from whose switches such calls are

completed; (2) define these responsible carriers as “Completing Carriers” and require them to develop their own system of tracking calls to completion; (3) require Completing Carriers to file with PSPs a quarterly report and also submit an attestation by a company official, including but not limited to the chief financial officer (CFO), that the payment amount for that quarter is accurate and is based on 100% of all completed calls; (4) require quarterly reporting obligations for other facilities-based long distance carriers in the call path, if any, and define these carriers as “Intermediate Carriers;” and (5) give parties flexibility to agree to alternative compensation arrangements (ACA) so that small Completing Carriers may avoid the expense of instituting a tracking system. The revisions adopted in the 2018 Report and Order significantly decreased the paperwork burden on carriers.
